

January 2023

Dear Parents and Carers,

Welcome back to school. We hope you had a wonderful break away from school and are excited to start our new projects. Thank you so much for your help so far and contributions to your children's learning. At Trent, we recognise that your child's success is often attributed to tremendous commitment from the whole family team, so thank you for your continued support. This letter is for your information, outlining the learning taking place in Year 4 this term.

Throughout the Spring Term, we will be covering the following:

Subject	Learning taking place at school	Links to previous learning to use as discussion points at home	Additional ideas to support your child at home
English	We are continuing to use high quality texts to feed into our Guided Reading and texts for our English lessons as well. We will be linking a number of books with our first project, Anglo Saxons. These texts	The children have previously covered a range of writing styles at Trent. Therefore, they will be able to build on their narrative styles to create informal letters and poems. Much of the punctuation that the children have learnt already will be relevant to Year 4. We will be building on this by discussing how to use punctuation effectively in our writing.	Discuss the current topic with your child, and ask them what they have been learning in English. We would encourage children to use dictionaries and thesauruses at home to expand and understand the vocabulary they are using. Our new reading programme has been outlined in a recent letter. Your support in hearing your child read and making sure their book and journal are in school on their reading day is greatly appreciated.

<p>include a collection of Anglo Saxon non-fiction texts. Writing genres will include letter writing, poetry and calligrams.</p> <p>After half term, we will be using texts such as <i>Raging Rivers</i> by Anita Ganeri, <i>Earth Heroes</i> by Lily Dyu and Amy Blackwell and a range of poems. Through these texts, the children will be able to develop their understanding of rivers and some influential people who have helped to protect the planet. We will cover a range of different writing styles including: poetry and dilemma stories.</p>	<p>Reinforcement of previous grammar terms would also be helpful, including verb tenses, fronted adverbials and subordinating conjunctions.</p>	<p>You may wish to explore different areas of Literacy through this link:</p> <p>https://www.bbc.com/bitesize/subjects/zv48q6f</p>
---	---	--

	<p>We will continue to look at strategies and skills required when learning how to spell and how to apply these in our writing.</p> <p>We will continue to build on the children's grammar terminology including: word classes (nouns, adverbs, adjectives and prepositions); expanded noun phrases; conjunctions (subordinating and coordinating); and fronted adverbials.</p>		
Maths	<p>We are continuing with White Rose Maths this half term. We will be covering multiplication and division. We look at factor pairs, written method of multiplication and</p>	<p>The children have learnt times tables in previous year groups and we have taught strategies to learn their 6, 7, 9, 11 and 12 times tables in this academic year as well as reviewed some of their prior times tables facts. This should help them when using short multiplication. In</p>	<p>Maths will be set regularly as part of the children's home learning. This will reflect what has been taught in school, the children will benefit from discussing areas in Maths that are included at home. We would also encourage regularly checking both digital and analogue times with your child as this is an area that children often find challenging. The more exposure they get to telling the time will benefit them hugely.</p>

	<p>division. We will also be teaching area, fractions, decimals and money.</p> <p>Additionally, we will be focusing on our times tables throughout the term in preparation for the Year 4 multiplication check. The expectation is that by the end of Year 4 children should be confident with their times tables up to 12×12.</p>	<p>Year 3, the children would have learnt about multiplying in a formal written method. We will also build on our prior learning of area from Autumn term. Additionally, we will build on the children's prior learning of fractions and money.</p>	<p>We would encourage the children to regularly practice their multiplication tables in order to support their recall. There are a number of great songs on Youtube and BBC Supermoves which can be used to help teach the children their times tables.</p> <p>Please ensure your child has all the necessary mathematical equipment in their pencil cases (pencil, whiteboard pen, sharpener and ruler).</p> <p>There are some fantastic Maths activities on the following links that you might wish to use to re-enforce any learning:</p> <p>https://www.topmarks.co.uk/mathsgames/7-11-years/ordering-andsequencing-numbers</p> <p>https://www.bbc.com/bitesize/topics/zpdwxnb</p> <p>Here is a link to a Multiplication Check which is similar to the one they will sit later in the year:</p> <p>https://mathsframe.co.uk/en/resources/resource/477/MultiplicationTables-Check</p>
--	--	---	--

			<p>Please note that the time tables which are taught in Year 4 are the 6, 7, 9, 11 and 12 times tables. Therefore, all other tables (2, 3, 4, 5, 8 and 10 times tables) should have been learnt in earlier year groups.</p>
Science	<p>For the first half term, we will be learning about Habitats and Living Things. The children will learn how living things can be grouped and will explore how to use classification keys. We will also be teaching the children about some of the environmental dangers that are posed to living things.</p> <p>After half term, we will be learning States of Matter. The children will learn to identify and classify the</p>	<p>The children have been developing their understanding of working scientifically throughout their time at Trent.</p> <p>In Year 2 and Year 3 children learn about different animals. In particular Year 3's predator project taught the children about some of the features of living things.</p> <p>Previously, the children have learnt about materials and the properties that they have. The children will build on this understanding to learn about the States of Matter.</p>	<p>For additional reading for children about Habitats and Living things:</p> <p>https://www.bbc.co.uk/bitesize/topics/zn22pv4</p> <p>For additional reading about States of Matter, please follow the following link:</p> <p>https://www.bbc.co.uk/bitesize/topics/zkgg87h</p>

	<p>different states of matter.</p> <p>They will also learn about the properties of solids, liquids and gases. The children will also learn to use data loggers to record changes in temperature over time. We will also teach the children about melting, freezing, evaporation and condensation.</p>		
Religious Education	<p>For the first half term, we will be learning about Sikhism in order to understand what other people may believe. Through this unit, the children will learn about Guru Nanak, the Guru Granth Sahib, equality, Sikh wedding and Guru Arjun Dev.</p>	<p>Children will have a good prior understanding of Christianity from studying Christianity in previous years.</p>	<p>For additional information on Sikhism, please follow this link:</p> <p>https://www.bbc.co.uk/bitesize/topics/zsipyrd</p>

	<p>After half term, the children will learn about whether fame and the Christian faith go together as well as Holy Communion. Through this term, the children will learn about the significance of the body and blood of Christ and how Holy Communion influences a Christian's day to day life.</p>		
Relationships and Health Education (RHE)	<p>Our RHE continues to focus on the Primary Children's Mental Health programme Cues Ed.</p> <p>Focus: Noticing feelings Catching Thoughts Thinking traps Our Amazing Brains Brain Boosts</p>	<p>Please support your child by talking to them about what we have learned. So far, this might include healthy sleep patterns, how what we eat can affect our mood, being active and relaxation techniques.</p>	

Project (history, geography, art and design, computing, design and technology)	<p>As part of History this term, the children will learn about who the Anglo-Saxons were, how they lived and how we know this. They will also learn about the Sutton Hoo and will compare the previous areas of history they have learnt about this year.</p> <p>Geography this term will involve learning about rivers and the features of rivers. The children will also learn about the Water Cycle and physical features of Britain.</p> <p>DT will initially focus on designing an Anglo-Saxon purse and will include sewing.</p> <p>As part of Computing, the children will be learning about Handling data and how we can use data loggers to record and analyse data.</p>	<p>In History, the children will be able to build on their understanding of the Romans and the Celts to understand where the Anglo Saxon's place in history.</p> <p>In Geography, we have discussed physical features in England and Italy including rivers. We have spent time learning about texture in art in the Autumn term and will continue to build on this.</p> <p>The children have had good experience designing things this year and will be able to build on their prior learning this term.</p> <p>We have collected data and used data loggers previously in Autumn term. The children will be able to build on their learning in order to collect different data and analyse it in new ways.</p>	<p>For more information on the Anglo Saxons, please follow this link:</p> <p>https://www.bbc.co.uk/bitesize/topics/zxsbcdm</p> <p>For more information on rivers and the water cycle, please follow this link:</p> <p>https://www.bbc.co.uk/bitesize/topics/zkgg87h/articles/z3wpp39</p> <p>https://www.bbc.co.uk/bitesize/topics/z849q6f/articles/z7w8pg8</p>
--	---	--	--

Physical Exercise	<p>Children will have two weekly PE sessions taught by Non Stop Action.</p> <p>Indoor PE will be a Dance Genres unit and outdoor PE will be Hockey.</p>	<p>PE will build on their prior experience of PE at Trent.</p>	<p>Please support your child in remembering the days that they have PE and need to wear their PE kits to school.</p>
Music	<p>Year 4 will have weekly music lessons taught by Mr Rollo.</p> <p>This term in music, we will be creating music using keyboards and percussion instruments to fit with film clips. We will focus on a range of musical elements to help us compose our pieces including dynamics, tempo and timbre. We will also investigate a range of ways to notate our pieces.</p>	<p>Mr Rollo aims to build on the pupil's prior experience of rhythm and music.</p>	<p>When listening to music ask children if they can describe what they can hear and some of the instruments involved.</p>

French	<p>The children will receive a specialist French lesson each week. Madame Keneally will be starting a new French scheme of work. The children will be learning about members of the family, vowels and pet vocabulary before half term.</p> <p>After half term, the children will be learning about Easter traditions, Dictionary skills, past tense and their likes and dislikes.</p>	<p>Madame Keneally will build on the children's prior learning in French.</p>	<p>You can support your child by discussing lessons or topics, and encouraging additional personal research or practice.</p>
--------	--	---	--

PE Year 4 will have PE on Monday and Tuesdays. Children need to wear full Trent PE kit to school on these days. As we aim for lessons to be outdoors as often as possible, we recommend that children wear their outdoor PE kit (green jogging bottoms, Trent PE top, green jumper). We ask that your child wears either black or white trainers. **We recommend providing your child with a spare pair muddy trainers/studs for them to use on the field.** Children are not allowed to wear jewellery during PE lessons (excluding a small stud in each ear). Children are not permitted to wear any jewellery (including earrings) during swimming lessons.

Homework

We will be continuing to use Google Classrooms for home learning. Homework will be set on Google Classroom on Fridays and will usually consist of:

- *A piece of Maths Atom learning
- *A piece of English Atom learning
- * A piece of science Atom learning or project learning (due in during the final week of the half term)

Homework is due in by Wednesday. Please encourage your child to get into the routine of ‘handing in’ their homework on time (by ensuring they click the ‘hand in’ button). If your child needs any help regarding their homework, they must come and see us before the Wednesday deadline so we can support them.

Equipment

Please can you make sure that your child’s pencil case is fully stocked. Missing handwriting pens, pencils and whiteboard pens are really hindering the learning of some of the children.

Please check with your child on a regular basis if they need any new items. We recommend that your child always has two pens and two pencils in their pencil case.

Please provide your child with a water bottle every day and a healthy fruit snack to eat during morning break time.

Dates for your diary

Tuesday 24th January – class trip to the Gudwara in Arnos Grove.

Wednesday 1st February 2023: Anglo Saxon Day

Parents Evening 8th and 9th February 2023

13th – 17th February 2023: Half Term

Wednesday 8th March 2023 – Year 4 Class Assembly

3rd – 14th April 2023 – Easter Holidays

Please do not hesitate to contact us if you have any questions.

Best wishes,

The Y4 Team
